Innovating for the future

ABOUT US

Amtec Links is an IT Solutions company, we provide a comprehensive range of IT products and services under one roof. Established in 2007, we have grown into a leading organization that provides reliable technology solutions to companies around the world. Our experienced team work closely with clients to understand their needs and provide tailored solutions. With years of experience, we know what it takes to grow and keep your business secure and running smoothly.

OUR MISSION

To develop products that will have a positive impact on the world. We are constantly inventing new technologies with this goal in mind, and hope they help make our planet more sustainable overall.

OUR VISION

To develop products and services that change the way we use technology and to become one of the foremost innovators of technology products and services.

IT HARDWARE

We are authorized resellers of some of the best IT Hardware manufacturers like Dell, Lenovo, Microsoft, Seagate, Zebra, and Prime Computer (Switzerland). We procure, install, and maintain IT Hardware for corporations of any size.

SOFTWARE

We provide both ready-made and custom-made software solutions to corporations. In addition to that, we also provide value added services such as IT support, integrations, implementations, and training.

CLOUD SOLUTIONS

Cloud Solutions is one of our core services, we integrate every other aspects with our cloud solutions to achieve digital transformation. We partner with Google Cloud, AWS, and Microsoft Azure as our infrastructure providers to provide reliable and efficient cloud solutions.

Let's make technology work for you.

WE CONNECT YOUR BUSINESS TO THE IT RESOURCES YOU NEED.

Our consultancy services consist of specialists in various fields that help improve organisations, reform IT operations, optimize IT systems, and implement security measures. From Internet services to outsourced services such as cloud-based computing and security as well as system integrations with special requirements, we utilize our wealth of experience and knowledge in responding to the needs of many different clients to support restructuring of entire organisations.

We also offer Web Development, Mobile App Development, Corporate Branding, Digital Transformation, IT Infrastructure Design, Software Design, Smart City Design, Cyber Security, Staff Training, and Sustainability Auditing.

WE PROVIDE A TAILORED END TO END SOLUTION.

Innovation is our engine for growth and development, we embrace the latest solutions that improves workforce productivity, efficiency, and increase revenue for the organization.

We work with our clients throughout their entire digital transformation journey, giving us a clear insight of the corporation's strengths and weaknesses for improvement.
